Subject: Moody Radio Reminders: Satellite Sun Outages, Daylight Saving Time & more | March 5, 2025

Reminder

2025 Spring Satellite Sun Outage Forecast | Feb. 28-Mar. 9

With the coming of spring, it is time to prepare for the upcoming spring satellite sun-outage schedule that may disrupt your programming. This occurrence happens in the spring and fall when the satellite transits the sun's disk for a few minutes each day over a period of several days in many parts of the United States.

The Moody Radio satellite channels (Moody-1 and Moody-2) on SES-2 (87-degrees West Longitude) Transponder 23C have already experienced the first outages of the season as early as last Friday, February 28. The outages may last through March 9, depending on your location.

Daylight Saving Time | Sunday, March 9

This is to remind all Moody Radio Affiliates that Daylight Saving Time begins the morning of Sunday, March 9 when we “spring-ahead” one hour at 2 a.m. Central Standard Time and the clock becomes 3 a.m. Central Daylight Time. We will observe the change at the traditional time of 2:00:01 a.m. CST on March 9. **Moody-1** will adjust the overnight airing of *The Praise & Worship Channel* music to **five** hours, rather than the usual six hours, on March 9.
